Innovation-driven **Product Manager**, with **3+ years** experience, driving **GTM & scaling** products to **\$4.2M ARR**, in Enterprise platforms
Mastered the craft of product leadership at **Carnegie Mellon University**, and currently seeking **Product Manager** opportunities

WORK EXPERIENCE

AI PLATFORM PRODUCT MANAGER | [KORE.AI](#) | Enterprise conversational AI SaaS platform

Jun 2022 - Jul 2024

Communication Platforms (CCaaS)

- Drove **\$4.2M ARR** for **Fortune 500** by building a **0-to-1** omnichannel outbound campaigns platform, achieved **80%** faster customer outreach, and reduced agent licensing cost by **30%**; ensured successful market launch
- Led team of 6 and secured buy-in from C-Suite by defining product vision, developing roadmap, and prioritizing features
- Drove **strategic partnerships** through cross-functional alignment with [Cisco](#) and [Avaya](#), scaling product offerings by **25%**
- Reduced engineering effort to meet OKRs and enhance customer experience, while conducting user and market research
- **Patent**: Improved predictive dialer algorithm resulting in **30% higher** prediction accuracy and reducing call abandonment rate by **25%** using Named Entity recognition and sentiment analysis; received **Innovator Award**

Enterprise Search (AI Agent Builder Platform)

- Boosted user adoption by **45%** & onboarding completion by **55%** by executing **Go-to-Market initiatives**, streamlining customer journey, based on customer feedback & quantitative data, with demo videos, documentation, user acceptance testing & A/B test
- Orchestrated the **agile development** of Search AI platform, building Extraction & Retrieval modules of **RAG/LLM-based** search pipeline, contributing to Kore.ai's being **Leader in the 2023 Gartner Quadrant** for Enterprise conversational AI for **2 years**
- Conceptualized and developed AI models (LLMs) for automating order-taking at Papa John's and Yum Brands, reducing order time by 3x (from 5 minutes to 1.5 minutes), cutting agent costs by 25%, and increasing customer satisfaction by 15%
- Earned praise from **200+ Yum Brands leaders**; won [Taco Bell](#) & [Pizza Hut](#) sponsorship by building an AI Search Companion MVP for front-line workers, leveraging **LLMs & RAG** to transform Pizza Hut's SOPs, cutting training costs by **60%**

PRODUCT MANAGER | [HIGHRADIUS](#) | AI-powered cash flow management

Aug 2021 - Jun 2022

- Directed a global business **Product Delivery Excellence** team to **revamp** the Credit platform and identify intelligent automation opportunities, defining use cases and prioritizing product requirements to accelerate product delivery by **2x**
- Launched a new account creation process tool, reducing process time by **90%**, resulting in faster and more efficient product delivery and elevated user experiences
- **Cross-collaborated** with teams to maintain an **80% boost** in product adoption through training materials and customer feedback

INTERNSHIPS

AI PRODUCT MANAGER INTERN, Oracle Partner (Oracle Cloud Applications)

Jun 2025 - Aug 2025

- Identified, **prioritized** and specified requirements for Gen AI chatbot use cases using **Retrieval Augmented Generation (RAG)** to cut down **customer support ticket** volume by **50%** and speed lease abstraction query resolution

AI PRODUCT MANAGER (Industrial Project) | [BOSCH USA](#)

Mar 2025 - May 2025

- Boosted annotation efficiency by **50%** by leading the development of an AI auto-labeling tool for time series sensor data, leveraging **agent workflows** and human feedback loops while aligning cross-functional stakeholders

PRODUCT LEAD | **CMU** | Responsible AI: Building Trust and Compliance in AI-Driven Enterprises

- Led team of 4 to build software product for enterprises facing challenges in safeguarding data privacy amid AI adoption, by driving **30+ user interviews**, creating product vision, defining MVP features, and devising a go-to-market strategy
